# EQUILIBRIUM Legend XT

## **Guaranteed Analysis**

Protein	14.00%	Sodium	0.55%
Fat	10.00%	Vitamin A	10,000 <sup>I.U./kg</sup>
Fibre	10.00%	Vitamin D3	2200 <sup>I.U./kg</sup>
Calcium	1.35%	Vitamin E	300 <sup>I.U./kg</sup>
Phosphorus	0.75%	Selenium	0.40 mg/kg

## **Directions for use**

EQUILIBRIUM LEGEND XT is recommended for equine athletes, racehorses, broodmares, foals and breeding stallions. Feed in conjunction with water and a minimum of 1% body weight (on a dry matter basis) of a long stemmed forage (hay/pasture). Feed according to the following table, whereby the lower quantity meets minimum vitamin and mineral requirements and the higher quantity meets Purina Superior Recommendations. Ideally, feed enough to achieve desired body condition, and for every kilogram under the recommendation for equine athletes, racehorses, and breeding stallions feed 225 grams of Purina Equilizer (35710), and for every kilogram under the recommendation for broodmares and foals feed 275 grams of Optimal (35720). Provide free-choice salt. Daily ration should be divided into 2 and preferably 3 separate feedings daily.

#### Daily amount of Equilibrium Legend XT

kg / 100 kg of body weight

	Minimum	Purina Superior
Maintenance	0.50	0.75
	Performance	
Light Exercise	0.64	1.00
Moderate Exercise	0.72	1.13
Intense Exercise	0.80	1.25
	Stallions	
Non Breeding	0.50	1.00
Breeding	0.64	1.00
	Broodmares	
Gestation	0.73	1.00
Lactation	0.91	1.25
	Foals	
4 to 6 Months	1.01	1.25
7 to 18 Months	0.91	1.25
19 Months and +	0.92	1.25

#### Extruded complete feed with calorie dense nutrition for broodmares, foals, growing horses, breeding stallions, equine athlete and race horses.

Equilibrium Legend XT utilizes state of the art food processing technology (extrusion) to maximize digestibility supporting horses. In every kibble, the horse will have the latest scientific research on nutritional requirements to produce a horse feed vital for optimal performance and health.

Equilibrium Legend XT is formulated with certified quality ingredients and is manufactured exclusively in our specialized and drug-free facility in Strathroy, Ontario.

## **Characteristics**

CHARACTERISTICS	ADVANTAGES
An extruded feed	<ul> <li>An optimal cooking process that gelatinizes starch for increased small intestine digestion.</li> </ul>
	<ul> <li>Helps minimize colic by preventing starch overload in the hindgut.</li> </ul>
	Good stability in different climates - feed room without temperature control.
	Consistent nutrient levels in every kibble - Important in group feeding.
	Slows feed intake. Ideal for horses that bolt their feed.
Contains 10% fat from	Highly digestible and energy/calorie dense.
vegetable sources	Less feed required to maintain body condition.
	Supports performance and weight management.
	• Delays gastric emptying which aids in ulcer prevention.
	• Clean burning fuel, does not produce lactic acid.
	• Spares glycogen levels for enhanced athletic performance.
Contains flaxseed (an excellent source of omega-3) for an optimally balanced fatty acid profile of 5:1, omega-6 to omega-3	Helps maintain proper cognitive ability.
	Improves hair coat and skin condition.
	Supports immune functions, anti-inflammatory properties
	and ulcer healing.
	<ul> <li>Promotes membrane integrity and cell (including red blood cells) viability.</li> </ul>
Contains Horse Plus™,	Essential blood-building nutrients.
Purina's exclusive blend of vitamins, consisting of	Supports immune function and overall health.
a full complement of the	Essential for proper utilization of energy for exercise.
8 B-vitamins (including biotin), vitamin C, E and K	Helps protect against exercise induced stress.
Contains elevated and added amino acids including methionine	<ul> <li>Provides building blocks for improved muscle tone and joint health.</li> </ul>
Contains organic copper, zinc, manganese and selenium	<ul> <li>Increases absorption and enhances trace mineral bioavailability to improve immune response and overall health.</li> </ul>
	<ul> <li>Supports healthy growth and development of growing horses.</li> </ul>
Contains yeast culture	<ul> <li>Improves hindgut fermentation which increases energy, protein and phosphorus utilization.</li> </ul>
Contains an elevated	Important antioxidants.
level of vitamin E (250 IU/ kg.) and selenium (0.4 mg/kg)	Helps supports immune functions and overall health.
	• Selenium also plays a role in the control of thyroid
(011118/18/	hormones metabolism.

### EQUILIBRIUM Legend XT

## Ingredients

Soya Hulls
DL-Methionine, L-Lysine, Soya Bean Meal
Extruded Corn and Ground Wheat
Flaxseed, Soya Oil
Yeast
Vitamin A, Vitamin D3, Vitamin E, Vitamin K, Riboflavin, Niacin, Thiamine, Vitamin B12, Biotin, Pantothenic Acid, Vitamin B6, Folic Acid, Ascorbic Acid, Choline Chloride
Salt (Sodium Chloride), Calcium Carbonate, Magnesium Oxide, Calcium Iodate, Copper Sulphate, Ferrous Sulphate, Manganese Oxide, Zinc Oxide, Organic Copper, Organic Manganese, Organic Zinc, Organic Selenium, Cobalt Carbonate, Mono Dicalcium phosphate
Wheat shorts
Flavoring, Molasses

\* Ingredients are not in order of their inclusion rate.

- 1. Amounts can vary depending on the hay. Purina recommends that you have your hay analyzed and balance your ration accordingly. Also, depending on the hay, Optimal may be better suited as a supplement than Equilizer.
- 2. Do not provide more than 0.5% of body weight of this feed at one time.
- $\label{eq:source} 3. \ {\it Provide} \, a \, {\it source} \, of fresh, {\it clean} \, water \, at \, all \, times.$
- 4. Follow sound management practices along with disease and sanitation control measures. If there are any questions, contact your veterinarian, Purina dealer or Purina sales consultant.

#### Caution

Directions for use must be carefully followed.

Feed is perishable. Store in a dry, well-ventilated area protected from rodents and insects. Do not feed moldy or insect-infested feed to animals as it may cause illness, abortion or death.
