

EQUILIBRIUM Equilizer

#35710
Platinum

Guaranteed Analysis

Protein	12.00%	Iodine	4.3 mg/kg
Fat	4.00%	Copper	240 mg/kg
Fibre	15.00%	Manganese	600 mg/kg
Calcium	3.00%	Zinc	700 mg/kg
Phosphorus	2.50%	Cobalt	2.5 mg/kg
Sodium	1.50%	Fluorine	50 mg/kg
Magnesium	0.30%	Vitamin A	39 000 I.U./kg
Sulfur	0.25%	Vitamin D3	7200 I.U./kg
Potassium	1.00%	Vitamin E	1000 I.U./kg
Iron	1000 mg/kg	Selenium	1.80 mg/kg

Directions for use

Feed Equilibrium Equilizer as the sole ration to easy keeping horses to provide minerals and vitamins without adding excess calories or proteins. Feed according to the following table, whereby the lower quantity meets minimum vitamin and mineral requirements and the higher quantity meets Purina Superior recommendations. Feed in conjunction with water and a minimum of 1% body weight (on a dry matter basis) of a long stemmed forage (hay/pasture). Provide salt free-choice.

Daily amount of Equilibrium Equilizer

kg / 100 kg of body weight

	Minimum	Purina Superior
Maintenance	0.111	0.167
Performance		
Light Exercise	0.160	0.222
Moderate Exercise	0.180	0.250
Intense Exercise	0.200	0.278
Stallions		
Non Breeding	0.111	0.222
Breeding	0.160	0.222
Broodmares		
Early / Mid Gestation	0.160	0.222

Mineral and vitamin supplement for horses

Equilibrium Equilizer is a low calorie, low sugar/starch, nutrient dense pellet with elevated minerals and vitamins, containing up to 5 times the vitamin-mineral content of most feeds. This supplement is also classified as a ration balancer. Purina makes two ration balancers: Equilibrium Equilizer and Equilibrium Optimal. The difference between the two is that Equilizer is formulated for inactive adult and performance horses, including pony and miniature horses, whereas Optimal is formulated for broodmares and growing horses. This recommendation is based on feeding Equilizer along with a typical horse hay. However, if Equilizer is fed exclusively with a low protein hay (<8% protein), then Optimal could be a better choice. If unsure on the quality of your forage (or need to have it tested), or which product best suits your needs please contact us.

Characteristics

CHARACTERISTICS	ADVANTAGES
Low sugar/starch content. Also identified as low glycemic or low NSC (nonstructural carbohydrates). Contains no whole grains or molasses	<ul style="list-style-type: none"> Ideal for insulin resistant, Cushing's and EPSM (Equine Polysaccharide Storage Myopathy) horses.
Low-calorie with elevated minerals and vitamins. Very nutrient dense	<ul style="list-style-type: none"> With the low feeding rate provides negligible caloric intake. Ideal when there is a need to cut calories but not nutrition. Easy-keepers, ponies and miniature horses. Ideal for overweight horses that maintain body weight on forage alone. Provides the nutrients lacking in a forage alone diet.
Contains added lysine	<ul style="list-style-type: none"> Provides an ideal balance of amino acids for enhanced muscle tone and joint health.
Contains organic copper, zinc, manganese and organic selenium Increases absorption and enhances trace mineral	<ul style="list-style-type: none"> Increases absorption and enhances trace mineral bioavailability to improve immune response and overall health.
Contains an elevated level of vitamin E (1000 IU/kg) and selenium (1.80 mg/kg)	<ul style="list-style-type: none"> Effective antioxidants. Helps repair the oxidative stress of exercise. Helps supports immune functions and overall health.
Contains 6 added B-vitamins (including biotin).	<ul style="list-style-type: none"> Supports optimum metabolic efficiency. Promotes hoof and overall health and vitality.

Ingredients

Fibre	Soya Hulls, Dehydrated Alfalfa Meal, Beet Pulp
Protein/Amino Acids	L-Lysine
Starch	Ground Wheat
Fat	Soya Oil
Prebiotic	
Probiotic	
Vitamins	Vitamin A, Vitamin D3, Vitamin E, Vitamin K, Riboflavin, Niacin, Thiamine, Vitamin B12, Biotin
Minerals	Salt (Sodium Chloride), Calcium Carbonate, Mono Dicalcium Phosphate, Calcium Iodate, Copper Sulphate, Ferrous Sulphate, Manganese Oxide, Zinc Oxide, Organic Selenium, Organic Copper, Organic Manganese, Organic Zinc, Defluorinated Phosphate, Cobalt Carbonate
Multi-Attributes	Wheat shorts
Flavour/Binder	Flavoring, Pellet Binding Agent

* Ingredients are not in order of their inclusion rate.

- Equilibrium Equilizer may be fed as a top dress in conjunction with a Purina feed for growing, maintenance and performance horses that are not being fed the recommended amount of a Purina horse Feed. Provide 0.175 kg to 0.250 kg of Equilibrium Equilizer for every kilogram below the recommended amount of a complete Purina Horse Feed. Equilibrium Equilizer is also an ideal top dress for mares in early and mid-gestation.
- Never feed more than the recommended amount without consultation from a Purina sales consultant.
- Provide a source of fresh, clean water at all times.
- Follow sound management practices along with disease and sanitation control measures. If there are any questions, contact your veterinarian, Purina dealer or Purina sales consultant.

Caution

Directions for use must be carefully followed.

Feed is perishable. Store in a dry, well-ventilated area protected from rodents and insects. Do not feed moldy or insect-infested feed to animals as it may cause illness, abortion or death.
