FEEDING DIRECTIONS

Feed AMP Purinature Chick Start & Grow Plus Medicated as the sole diet beginning at hatch.

Then, feed Purinature Layena Plus beginning at 16 weeks of age or the onset of lay.

- Don't let feeders run empty.
- Clean feeders and waterers regularly.
- Provide fresh, clean water at all times.

IMPORTANT

Follow sound management practices along with disease and sanitation control measures. If there are any questions, contact your veterinarian, Purina dealer or sales representative.

WARNING

Do not feed to laying birds in production.

CAUTION

1. Do not use amprolium medicated feeds as treatment for outbreaks of Coccidiosis.
2. If unexpected deaths occur, obtain an accurate diagnosis and follow a veterinarian's or poultry pathologist's recommendations.
3. Directions for use must be carefully followed.
4. Feed is perishable. Store in a dry, well-ventilated area protected from rodents and insects. Do not feed moldy or insect-infested feed to animals as it may cause illness, abortion, or death

DISCLAIMER OF LIABILITY

Individual results from use of this product may vary based upon differences in customers' programs of management, health, sanitation, breeding, genetics and feeding. Therefore, Cargill Limited and its Dealers do not warrant or guarantee individual results.
